

Rachel White

Senior Research Analyst

Rachel joined Mastrapasqua in July 1997 as a research analyst. Rachel has played an integral part in the development of Mastrapasqua's proprietary valuation model – the GRAD Point™ methodology. She continues to maintain the GRAD Point™ model, as well as creating and maintaining other proprietary models for screening new stocks and sectors (in addition to current holdings). Additionally, Rachel monitors economic data relative to current and prospective holdings along with working on special projects for the portfolio managers.

Rachel graduated from Rhodes College in May 1997 with a Bachelor of Arts degree in economics and business administration. She has also completed a graduate level course in Investment Management and completed Level 1 of the Chartered Financial Analyst exam.
